(54) Title: A SUNBLIND

(57) Abstract: A sunblind (10,20,30,40) is disclosed for use with a window (27,37) of a vehicle. The sunblind (10,20,30,40) comprises a rigid frame (11) having a closed-loop configuration and a panel of flexible material (12) secured to the rigid frame (11). The panel (12) has a desired degree of opacity to sunlight and extends over the interior of the rigid frame (11). The sunblind (10,20,30,40) further comprises means (14,16,24,26,34a,34b,36,50) for fixing the rigid frame (11) to an interior surface of the vehicle such that the panel (12) occludes at least part of the window (27,37) to sunlight.
